

VU DMT 2012 – Assignment 2

Z. Szilávik (Zoli)

VU University Amsterdam
z.szilavik@vu.nl

Abstract. This document describes Assignment 2 of the Data Mining Techniques course of 2012. There are tasks to be carried out individually, and tasks to be done in groups of two. Submitting one document per group is required that should report on both members' individual tasks as well as on group tasks.

1 Fixed-Period Problems: The Sublinear Case
